Hi Julie,

I just meet with the rep from UMass's Facilities & Campus Planning, Richard Nathhorst Project Manager (He's the one trying to get us out of the building.) He informed us that some of the building utilities will be shut off (gas, steam and vacuum). We only use the vacuum for mushrooms no big problem, I will order a vacuum pump. The real problem is they are getting ready to renovate the back rooms and are not giving us the two storage rooms we requested for our data storage. Also there is no plan to for us to be included in the upgraded security for the building. Could you check with Grace and see if our space and security needs are met? Richard Nathhorst can be reached at nathorst@facil.umass.edu or 413-545-6497.

Thank you,

Jim
